FORM ADV PART 2A BROCHURE

This Brochure provides information about the qualifications and business practices of Bryn Mawr Capital Management, LLC (“us”, “we” “Bryn Mawr Capital Management”, or “BMCM”). If you have any questions about the contents of this brochure, please call us at (215) 731- 1820. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission (“SEC”) or by any state securities authority. Bryn Mawr Capital Management, LLC is a SEC registered investment adviser. Registration as an investment adviser does not imply a certain level of skill or training. Additional information about Bryn Mawr Capital Management, LLC is also available on the SEC’s website at [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov).

**Item 2: Material Changes**

A summary of material changes to Bryn Mawr Capital Management's Form ADV Part 2A Brochure since the last annual update on March 31, 2022, are:

1. Cypress Capital Management, LLC (CRD# 109955), an affiliated adviser, merged into WSFS Capital Management, LLC d/b/a West Capital Management as of January 1, 2023.
2. The name of WSFS Capital Management, LLC d/b/a West Capital Management was changed to Bryn Mawr Capital Management, LLC as of January 1, 2023
3. Item 4 – AUM was updated to consolidate the 12/31/21 AUM for WSFS Capital Management, LLC and Cypress Capital Management, LLC.
4. Item 15 – Custody: updated to indicate that BMCM serves as investment adviser and sub-adviser to certain client accounts, where an affiliate (e.g., WSFS Bank serves as either trustee or co-trustee. For those accounts which BMCM is assumed to have custody, BMCM is required to obtain a surprise examination by a PCAOB registered independent public accountant, at least annually.
5. Item 17 –Voting: updated to indicate that if specified in the Investment Management Agreement ("IMA"), BMCM will vote proxies associated with securities held in certain managed accounts.

A summary of material changes to this and subsequent brochures will be made available to you within 120 days of the close of our business' fiscal year. We will provide you with additional updates or other disclosure information at other times during the year in the event of a material change in our business as required by applicable regulation.

You may request the most recent version of this brochure, free of charge by contacting us at 215-731-1820. Additional information about the Firm is also available via the SEC's website, [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov). The SEC's website also provides information about any persons affiliated with Bryn Mawr Capital Management, LLC who are registered, or are required to be registered, as investment adviser representatives of Bryn Mawr Capital Management, LLC.

**Item 4: Advisory Business**

Bryn Mawr Capital Management, LLC (“BMCM”) (formerly named WSFS Capital Management, LLC d/b/a West Capital Management) was formed in 2016 to offer a variety of investment advisory services, including financial planning and investment management. It is a wholly-owned subsidiary of WSFS Financial Corporation (“WSFS”). WSFS is a publicly-held bank holding company.

BMCM provides financial planning, consulting, and investment management services. The firm works with its clients to develop a wealth plan that is customized to the clients’ goals and investment objectives. Prior to engaging BMCM to provide investment advisory services, the client is required to enter into a written agreement with BMCM setting forth the terms and conditions under which BMCM renders its services (the “Agreement”).

In addition, BMCM serves as sub-adviser, providing investment management services to certain accounts at WSFS Bank’s Wealth division and other unaffiliated trust companies and/or SEC registered investment advisers. BMCM manages these accounts in accordance with the investment policy statement provided to BMCM by WSFS Bank, other trust companies and/or registered investment advisers.

As of the close of business on December 31, 2021, BMCM had regulatory assets under management of \$2,239,078,690 of which \$2,223,541,759 were managed on a discretionary basis and \$15,536,931 were managed on a non-discretionary basis. This information is the consolidation of the December 31, 2021, regulatory assets under management for BMCM (formerly West Capital Management, LLC) and Cypress Capital Management (which merged with BMCM as of January 1, 2023).

**Co-Advisory Relationship with WSFS Bank**

On January 25, 2019, we entered into a co-advisory relationship with our affiliate, WSFS Bank, under which WSFS Bank can recommend that a prospective advisory client enter into a tri-party investment advisory agreement among WSFS Bank, us and the client. In this arrangement, WSFS Bank provides certain non-discretionary advisory and other services to the co-advised client, and BMCM provides ongoing discretionary advisory services to the client. More specifically, WSFS Bank conducts an

assessment of a prospective client's needs to determine whether professional money management services are appropriate for clients, and whether BMCM would be an appropriate adviser for prospective advisory clients.

At the onset of the relationship, the potential co-advised client will receive and sign a disclosure statement. The disclosure statement describes the terms of compensation WSFS Bank will receive, acknowledges the receipt and review of BMCM's Form ADV Part 2A, 2B, and Form CRS and acknowledgement the receipt and review of BMCM's and WSFS's privacy policy. WSFS Bank is required to complete an assessment of each co-advised client. In addition, each co-advised client is required to enter into a tri-party Investment Advisory Agreement with WSFS Bank and BMCM. Under this agreement, BMCM is responsible for investing and reinvesting the client's assets, on a discretionary basis. Co-advised clients are permitted to impose reasonable restrictions on the management of their advisory accounts. In addition, co-advised clients are responsible for informing BMCM when changes occur in a client's personal or financial circumstances that may have a bearing on the manner in which assets are invested. WSFS Bank is responsible for attempting to contact co-advised clients to discuss a client's satisfaction with, and the suitability of, the services provided by us within 90 days from acceptance of the Investment Advisory Agreement and relevant disclosures and at least annually thereafter.

### **Investment Management Services**

Clients can engage BMCM to manage all or a portion of their assets on a discretionary or non-discretionary basis. As part of these services, BMCM provides its clients with certain financial planning or consulting services based on the clients' needs. These financial planning and consulting services typically include services such as estate planning, retirement planning, investments, education, and cash flow needs of the client.

As detailed in Item 8, the firm allocates clients' investment management assets among Independent Managers (as defined below) and various investment strategies in accordance with the investment objectives of the client. However, BMCM can provide advice about any type of investment held in clients' portfolios. If appropriate, BMCM may recommend that clients who are "accredited investors" as defined under Rule 501 of the Securities Act of 1933, as amended, invest in private placement securities, which may include debt, equity, and/or pooled investment vehicles when consistent with the clients' investment

objectives. BMCM utilizes iCapital, when appropriate, to assist in the selection of privately offered securities (please see Item 8 for more detail).

BMCM tailors its advisory services to the individual needs of clients. As detailed in Item 8, BMCM consults with clients initially and on an ongoing basis to develop an investment policy statement which determines risk tolerance, time horizon and other factors that may impact the clients' investment needs. BMCM ensures that clients' investments are suitable for their investment needs, goals, objectives, and risk tolerance.

Clients are advised to notify BMCM promptly if there are changes in their financial situation or investment objectives or if they wish to impose any reasonable restrictions upon BMCM's management services. Clients may impose reasonable restrictions or mandates on the management of their account if, in BMCM's sole discretion, the conditions will not materially impact the performance of a portfolio strategy or prove overly burdensome to its management efforts.

### **Use of Independent Managers**

As mentioned above, BMCM determines if it is appropriate for clients to authorize the active discretionary management of a portion of their assets by and/or among certain independent investment managers ("Independent Managers"), based upon the stated investment objectives of the client. The terms and conditions under which the client engages the Independent Managers are set forth in a separate written agreement between BMCM and the client under which BMCM is authorized to designate Independent Manager(s). BMCM provides the service of selecting the Independent Managers. BMCM also monitors and reviews the account performance and the client's investment objectives.

When selecting an Independent Manager for a client, BMCM reviews information about the Independent Manager such as its disclosure brochure and/or material supplied by the Independent Manager or independent third parties for a description of the Independent Manager's investment strategies, past performance, and risk results to the extent available. Factors that BMCM considers in recommending an Independent Manager may include, but are not limited to:

- Ability to articulate a clear and readily understandable investment process
- Manager transparency – investor communication

- Manager personal assets should be invested alongside clients
- There is a definable, demonstrable “edge” in the investment process
- Outside investment professionals think highly of the manager’s capabilities
- The integrity, experience, and skill of the manager can be verified through independent reference checks
- Manager has built an operational infrastructure sufficient for anticipated assets
- Appropriate fee structure for the strategy
- Experience of team
- Key portfolio managers have experience that is consistent with their effort to manage a portfolio
- Performance
- Financial strength
- Reporting

Factors that BMCM considers in terminating a relationship with an Independent Manager may include, but are not limited to:

- Investment professional turnover
- Asset growth leads to diminished capability in executing strategy
- Chasing opportunities outside of their circle of competence
- Loss of focus – undertaking too many other strategies, change of ownership, etc.
- Unexplainable performance or change in risk level of portfolio
- Departure from stated investment process
- Manager unable to satisfactorily defend investment decisions

In addition to BMCM’s written disclosure brochure, the client also receives the written disclosure brochure of the designated Independent Managers. Certain Independent Managers may impose more restrictive account requirements and varying billing practices than BMCM. In such instances, BMCM will likely alter its corresponding account requirements and/or billing practices to accommodate those of the Independent Managers.

When BMCM provides investment advice to you regarding your retirement plan account, individual retirement account, or other qualified asset under ERISA, we are fiduciaries within the meaning of Title I of the Employee Retirement Income Security and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. The way we make money creates some conflicts with your interests, so BMCM operates under a special rule that requires us to act in your best interest and not put our interest ahead of yours. Clients can engage BMCM to provide either education or recommendations with respect to qualified ERISA assets including:

- from a qualified plan to an IRA;
- from an existing third-party IRA to a BMCM IRA;
- changing the account type of an existing BMCM IRA;
- from a qualified plan to another qualified plan; and
- from an IRA to qualified plan rollover.

Such provisions also extend to other qualified assets such as Education Savings Accounts and retirement annuities. Clients should fully understand all of the conflicts, risks, costs & expenses, as well as potential benefits associated with moving qualified retirement assets. Clients are under no obligation to accept or follow BMCM's recommendations.

**Item 5:                    Fees and Compensation**

BMCM offers its services on a fee basis, which is generally based upon assets under management. All fees charged by BMCM are subject to negotiation.

**Investment Management Fees**

BMCM provides investment management services for an annual fee based upon a percentage of the market value of the assets being managed by BMCM. Any financial planning or consulting services provided are included as part of this fee. The firm's annual fee is exclusive of, and in addition to brokerage commissions, transaction fees, and other related costs and expenses which are incurred by the client including fees charged by selected Independent Manager(s). BMCM does not, however, receive any portion of these commissions, fees, and costs. BMCM's annual fee is charged quarterly, in advance, based upon the market value of the assets being managed by BMCM on the last day of the previous quarter.

Fees are calculated using the portfolio management system which is as of trade date and includes accrued dividends, income and non-settled trades. Fees are prorated where applicable. The annual fee varies (between 0.20% and 1.00%) depending upon the market value of the assets under management and the type of investment management to be rendered, as follows:

<b>PORTFOLIO VALUE</b>	<b>BASE FEE</b>
First \$1,000,000	1.00%
Next \$2,000,000	0.90%
Next \$2,000,000	0.80%
Next \$5,000,000	0.70%
Next \$10,000,000	0.50%
Next \$10,000,000	0.40%
Next \$20,000,000	0.30%
Assets over \$50,000,000	0.20%

In limited circumstances, BMCM provides investment management services for a flat fee. In certain circumstances, BMCM will provide standalone financial planning services for an agreed upon price which may be hourly.

BCMC, in its sole discretion, can negotiate to charge a lesser management fee based upon certain criteria (i.e., anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, pre-existing client, account retention, pro bono activities, etc.). Employees and their family members may have accounts which pay a discounted fee. All fees are reviewed by Senior Management as part of the IMA approval process.

### **Fees Charged by Other Financial Institutions**

As further discussed in response to Item 12 (below), BMCM predominantly utilizes the brokerage and clearing services of Fidelity Institutional Wealth Services (“Fidelity”), Charles Schwab & Co., Inc. (“Schwab”), or TD Ameritrade Institutional, a division of TD Ameritrade, Inc. (“TD Ameritrade”) for investment management accounts.

BMCM will only implement its investment management recommendations after the client has arranged for and furnished BMCM with all information and authorization regarding accounts with appropriate financial institutions. Financial institutions include, but are not limited to, Fidelity, Schwab, TD Ameritrade, or any other broker-dealer recommended by BMCM, broker-dealer directed by the client, trust companies, banks etc. (collectively referred to herein as the “Financial Institutions”). Clients typically incur certain charges imposed by the Financial Institutions and other third parties such as fees charged by Independent Managers, custodial fees, charges imposed directly by a mutual fund or exchange-traded fund (“ETF”) in the account, which are disclosed in the fund’s prospectus (e.g., fund management fees and other fund expenses), short-term redemption fees, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Additionally, for assets outside of any wrap fee programs, clients will incur brokerage commissions and transaction fees. Such charges, fees and commissions are exclusive of and in addition to BMCM’s investment advisory fee.

BMCM’s Agreement and the separate agreement with any Financial Institutions authorize BMCM or Independent Managers to debit the client’s account for the amount of BMCM’s fee and to directly remit that management fee to BMCM or the Independent Managers. Any Financial Institutions recommended by BMCM has agreed to send a statement to the client, at least quarterly, indicating all amounts disbursed from the account including the amount of management fees paid directly to BMCM. Alternatively, in limited circumstances clients can elect to have BMCM send an invoice for payment.

### **Fees for Management During Partial Quarters of Service**

For the initial period of investment management services, the fees are calculated on a pro rata basis. The Agreement between BMCM and the client will continue in effect until terminated by either party pursuant to written notice and the other terms of the Agreement. BMCM’s fees are prorated through the date of termination and any remaining balance is refunded to the client, as appropriate.

Clients may make additions to and withdrawals from their account at any time, subject to BMCM’s right to terminate an account. Additions may be in cash or securities provided that BMCM reserves the right to liquidate any transferred securities or decline to accept particular securities into a client’s account. Clients may withdraw account assets on notice to BMCM, subject to the usual and customary securities

settlement procedures. However, BMCM designs its portfolios as long-term investments, and the withdrawal of assets may impair the achievement of a client's investment objectives. BMCM will consult with its clients about the options and ramifications of transferring securities. However, clients are advised that when transferred securities are liquidated, they are subject to transaction fees, fees assessed at the mutual fund level (i.e. contingent deferred sales charge) and/or tax ramifications. If assets are deposited into or withdrawn from an account after the inception of a quarter, the fee payable with respect to such assets will not be adjusted or prorated based on the number of days remaining in the quarter.

### **Independent Manager Fees**

In addition to fees that are charged to clients by Independent Managers, BMCM receives an annual advisory fee from clients which is based upon a percentage of the market value of the assets being managed by the designated Independent Managers.

### **Co-Advisory Fees**

Co-advised clients pay fees to us for the services rendered by both WSFS Bank and us under the tri-party Investment Advisory Agreement, based on the standard fee schedule described above. The client does not pay a fee directly to WSFS Bank for the services it provides under the tri-party agreement. Instead, on behalf of and as an accommodation to the co-advised client, we pay WSFS Bank for these services.

For current co-advised clients, BMCM will pay WSFS Bank an amount equal to 15% of the fee collected by BMCM on co-advised assets under management in the account during the first four full calendar quarters immediately following the date on which the account was opened. WSFS Bank will then pay the fee it receives under the tri-party agreement to WSFS bank employees who made the referral. In the event that the fees payable to BMCM by a co-advised client are delayed, reduced, or unpaid, BMCM's fees payable to WSFS Bank shall be similarly delayed, reduced or unpaid. If BMCM refunds any fees to co-advised clients, BMCM may deduct fees from subsequent quarterly periods in the amount of any prior fees paid to WSFS Bank that are attributable to such refunded fees, or BMCM may request that WSFS Bank refund previously paid fees. Any such refund shall be paid to BMCM by WSFS Bank within ten

(10) days of any such request.

### **Trading on Margin**

In limited instances, BMCM may trade accounts on margin if granted authorization by the client. An account with a margin balance will incur margin interest which the custodian will charge in addition to BMCM's advisory fee. As BMCM's advisory fee is based on total assets under management, BMCM's fees would include any margin balance held in a client's account. This creates a potential conflict of interest because the use of margin can effectively increase the total assets under management. Clients are under no obligation to authorize BMCM's use of margin.

### **Cash management**

As part of the investment process, BMCM will routinely maintain and actively manage a percentage of each client's portfolio in cash or cash equivalents. Such cash is generally used to meet short term client cash needs or may be maintained to pay for additional investments in securities as needed. Clients will pay management fees on cash assets even though they may earn little to no interest and cash and cash equivalent assets generally do not appreciate in value.

### **Item 6: Performance-Based Fees and Side-By-Side Management**

The firm does not charge performance-based fees (those that are based on capital gains or capital appreciation of the client's assets). Our firm is not involved with any side-by-side management relationships or fee structures.

### **Item 7: Types of Clients**

BMCM provides advisory services to individuals, corporate pension, profit-sharing and other qualified plans, trusts, estates, charitable organizations, foundations, endowments, corporations, and other business entities.

### **Minimum Account Size**

As a condition for starting and maintaining a relationship, BMCM generally imposes a minimum portfolio

size of \$500,000 to \$1,000,000. BMCM, in its sole discretion, can accept clients with smaller portfolios based upon certain criteria including anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, pre-existing client, account retention, and pro bono activities. BMCM only accepts clients with less than the minimum portfolio size if, in the sole opinion of BMCM, the smaller portfolio size will not cause a substantial increase of investment risk beyond the client's identified risk tolerance. BMCM can, at its discretion, aggregate the portfolios of family members to meet the minimum portfolio size. Certain Independent Managers may impose more restrictive account requirements; BMCM may alter account requirements to adhere to the requirements of the Independent Manager.

**Item 8: Methods of Analysis, Investment Strategies, and Risk of Loss**

**Investment Strategies and Methods of Analysis**

With the integration of a thoughtful financial planning process, we meet clients' return and risk objectives through the creation of diversified portfolios using the best products available. We use outside mutual funds, ETFs, internally managed separate accounts, and Independent Managers as described in Item 4 to meet each client's unique objectives. A long-term diversified strategic asset allocation guides the portfolio's structure over multiple market cycles, with adjustments made based on our 12-to-18-month market views.

The firm first conducts an initial assessment with the client and develops a customized Investment Policy Statement ("IPS"). The IPS guides the firm's investment decisions with the goal of ensuring the client's plans stay on track. Once the clients' goals have been defined in the IPS, the firm's next step is to assess how well the client's current holdings align with them. In this stage, BMCM has two purposes: (1) to identify hidden risks in the portfolio that exceed the client's comfort level without providing acceptable rates of return; and (2) for each security that presents a concern, BMCM will take into consideration the tax efficiency of the portfolio and other factors it believes are important. BMCM also utilizes a Monte Carlo simulation in order to assess the probabilities that the portfolio recommended will be able to achieve the established goals and if it fails, to work with the client to prioritize. Factors include, but are not limited to, the following:

- current assets
- cash flows

- tax and capital gains rates
- retirement age
- life expectancy

With these inputs, BMCM's simulation generates a set of future possible outcomes for different investment scenarios.

To implement a client's plan, BMCM can allocate assets to Independent Managers and mutual funds, as well as utilizing proprietary strategies that may include individual stocks and bonds in accordance with the client's investment objectives. The firm also provides advice on any other investments held in a client's portfolio, as necessary to implement the plan.

When using Independent Managers, or purchasing individual stock or bonds, the firm seeks to measure its absolute and risk adjusted performance to appropriate benchmarks, with a well-researched understanding of the respective managers investment process and risk profile. The risk profile is based on historical figures including but not limited to volatility and maximum drawdown. BMCM believes a combination of passive and active managers provide an ideal balance between cost efficiency and alpha generation. Each Independent Manager also has the potential to offer distinctive sources of excess returns, such as long-only equities, long/short equity strategies, options-based strategies, international exposure, and other securities it believes are appropriate. BMCM, in coordination with the firm's investment research team, creates internally generated capital market assumptions to project expected risk, return, and correlation data for their portfolios.

BMCM regularly monitors for formations of risk that may not be apparent at the individual manager level. Portfolio risk exposure and rebalancing is performed on an as-needed basis.

To enhance diversification in the client's portfolio, BMCM looks for a mix of active Independent Managers and opportunistic strategies that have a low correlation with each other. While these correlations are based largely on historical relationships, BMCM continually challenges historical

assumptions and closely monitors catalysts that may change traditional correlations.

Finally, the firm seeks to find Independent Managers who invest their own personal wealth side by side with their investors, helping to boost their motivation and align their interest with the clients. BMCM's primary methods of analysis are fundamental with a qualitative focus. The factors that BMCM considers in recommending an Independent Manager are stated in Item 4.

With regard to privately offered vehicles, BMCM utilizes the iCapital platform, which provides a menu of private fund strategies (private equity, private credit, venture capital, real estate, and hedge funds). iCapital's research and due diligence team select the private funds on the iCapital platform. BMCM does not pay iCapital a fee for their service, however, investors may be placed in privately offered vehicles where iCapital, or a related entity of iCapital, serve as fund manager, general partner, investment manager, sub-advisor, or other capacity to a fund suggested to a client. BMCM does not conduct due diligence on the underlying private funds offered on the iCapital platform. iCapital is not affiliated with BMCM. For privately offered vehicles that clients are interested in but are not offered on the iCapital platform, BMCM will perform initial and ongoing due diligence on these privately offered vehicles.

BMCM also provides sub-advisory services to trust Companies and other SEC registered investment advisers. BMCM does not currently have a minimum fee for sub-advisory services to trust Companies and other SEC registered investment advisers. See Item 4, Advisory Business, for further details.

## **RISK OF LOSS**

BMCM does not offer any products or services that guarantee rates of return on investments for any time period to any client. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

### **General Risk of Loss**

Investing in securities involves the risk of loss which clients should be prepared to bear.

**Interest Rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to

decline.

**Market Risk:** The price of a stock, bond or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.

**Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, major drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than a utility company, which generates its income from a steady stream of customers who buy power or services no matter what the economic environment is like.

**Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year. Purchasing power is reduced because of inflation.

**Liquidity Risk:** The risk that investors may have difficulty finding a buyer when they want to sell and may be forced to sell at a significant discount to market value. Liquidity risk is greater for thinly traded securities such as lower-rated bonds, bonds that were part of a small issue, bonds that have recently had their credit rating downgraded or bonds sold by an infrequent issuer.

**International Risk:** International Markets typically present more risk than domestic markets. Investing in securities of non-U.S. governments and companies which are generally denominated in non-United States currencies and utilization of options on non- United States securities involves certain considerations comprising both risks and opportunities not typically associated with investing in securities of the United States government or United States companies. These considerations include changes in exchange rates and exchange control regulations, political and social instability, expropriation, imposition of foreign taxes, less liquid markets and less available information than is generally the case in the United States, higher transaction costs, less government supervision of exchanges, brokers and issuers, greater risks associated with counterparties and settlement, difficulty in enforcing contractual obligations, lack of uniform accounting and auditing standards and greater price volatility.

**Mutual Funds and ETFs:**

An investment in a mutual fund or ETF involves risk, including the loss of principal. Mutual fund and ETF shareholders are subject to the risks stemming from the individual issuers of the fund's underlying portfolio securities. Such shareholders are also liable for taxes on any fund-level capital gains, as mutual funds and ETFs are required by law to distribute capital gains in the event they sell securities for a profit that cannot be offset by a corresponding loss.

Shares of mutual funds are generally distributed and redeemed on an ongoing basis by the fund itself or a broker acting on its behalf. The trading price at which a share is transacted is equal to a fund's stated daily per share net asset value ("NAV"), plus any shareholders fees (e.g., sales loads, purchase fees, redemption fees). The per share NAV of a mutual fund is calculated at the end of each business day, although the actual NAV fluctuates with intraday changes to the market value of the fund's holdings. The trading prices of a closed-end mutual fund's shares may differ significantly from the NAV during periods of market volatility, which may, among other factors, lead to the mutual fund's shares trading at a premium or discount to NAV.

Shares of ETFs are listed on securities exchanges and transacted at negotiated prices in the secondary market. Generally, ETF shares trade at or near their most recent NAV, which is generally calculated at least once daily for indexed-based ETFs and more frequently for actively managed ETFs. However, certain inefficiencies may cause the shares to trade at a premium or discount to their pro rata NAV. There is also no guarantee that an active secondary market for such shares will develop or continue to exist. Generally, an ETF only redeems shares when aggregated as creation units (usually 50,000 shares or more).

**Diverse Limited Partner Group.** Investors may have conflicting investment, tax, and other interests with respect to their investments in Private Funds. The conflicting interests of individual investors may relate to or arise from, among other things, the nature of investments made by the advisers on behalf of the Private Fund in which such Investors are invested, the structuring or the acquisition of such investments and the timing of disposition of such investments. In selecting and structuring investments appropriate for a Private Fund, the advisers will consider the investment and tax objectives of the Private

Fund as a whole, and not the investment, tax, or other objectives of any of its Investors.

**No market for interests; restrictions on transferability; no withdrawal rights.** The interests acquired by Investors in each Private Fund ("Interests") have not been registered under the Securities Act of 1933 (the "1933 Act") or the securities laws of any state or other jurisdiction and cannot be resold unless they are subsequently registered under the 1933 Act and other applicable securities laws or an exemption from registration is available. It is not contemplated that registration of the Interests of such Private Funds will ever be effected under the 1933 Act or other securities laws. There is no public market for the interests, and none is expected to develop. An investor will also generally not be permitted to assign its Interests without the prior consent of the relevant adviser of the Private Fund, which may be withheld in its sole discretion. Investors may not, except in extraordinary circumstances, withdraw from the Private Fund in which they are invested. Consequently, investors may not be able to liquidate their interests prior to the expiration of the term applicable to such Private Fund and must be prepared to bear the risks of owning Interests for an extended period.

#### **Use of Independent Managers**

BMCM typically recommends the use of Independent Managers for certain clients. BMCM will continue to do ongoing due diligence of such managers, but such recommendations rely, on the Independent Managers ability to successfully implement their investment strategy. In addition, BMCM does not have the ability to supervise the Independent Managers on a day-to-day basis other than as previously described in response to Items 4 and 8, above.

#### **Use of Private Collective Investment Vehicles**

If appropriate, BMCM may recommend the investment by certain clients in privately placed collective investment vehicles (some of which may be called "hedge funds"). The managers of these vehicles will have broad discretion in selecting the investments. There are few limitations on the types of securities or other financial instruments which may be traded and no requirement to diversify. The hedge funds may trade on margin or otherwise leverage positions, thereby potentially increasing the risk to the vehicle. In addition, these vehicles are not registered as Investment Companies. There are numerous other risks in investing in these securities. The client will receive a private placement memorandum and/or other documents explaining such risks.

Some of the Private Funds recommended by BMCM are found on the iCapital platform; there is no formal agreement between iCapital and BMCM. Clients investing in funds on this platform bear risk that iCapital will not be able to operate the platform. BMCM relies on iCapital to perform the due diligence on these funds and relies on iCapital's advice with regard to funds that fit the appropriate investment strategy. There is a possibility that iCapital does not perform its services or may be negligent in performing its duties in relation to the iCapital Platform. The investments of a Private Fund may lose all or a substantial portion of their value and are less liquid than traditional publicly traded investments. Investors in Private Funds must be prepared to bear the risk of loss of their investments therein. It is critical that potential investors refer to the relevant Private Fund's PPM and offering documents, which include more comprehensive, detailed disclosure of the investment strategy and material risk of investing in a Private Fund, for a complete understanding. In addition, while certain risks may be more important for certain investment strategies, certain risks may overlap investment.

**Cybersecurity Risk:** With the increased use of technology, financial firms are susceptible to operational, information security and related risks. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber-attacks include, but are not limited to, gaining unauthorized access to digital systems for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber incidents impacting BMCM can cause disruptions and impact business operations, potentially resulting in the inability to transact business, financial losses, violations of applicable privacy and other laws, regulatory fines, penalties, or reputational damage. While BMCM has established a business continuity plan and risk management systems intended to identify and mitigate cyber incidents, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Furthermore, BMCM cannot control the cybersecurity plans and systems put in place by third party service providers and issuers in which client portfolios invest. As a result, clients could be negatively impacted.

**Impact of Disease Epidemics:** The outbreak of an infectious disease in the United States or elsewhere, such as the novel coronavirus (*e.g.*, "**COVID-19**"), together with any resulting travel restrictions or quarantines, could result in disruptions to the adviser and/or third-party service providers on which the

adviser relies. Given that the nature, timing, and severity of an outbreak is unknown, the extent to which an epidemic might impact the adviser, its investments, or its advisory operations is uncertain. In addition to impacting the adviser and the adviser's third-party providers, a pandemic may, and most likely will, have a negative impact on the economy and business activity in the United States and worldwide leading to potential significant disruption, volatility, and potential losses across financial markets. Clients of the adviser must be prepared for such potential losses and while the adviser has processes in place to ensure business continuity and to monitor the performance of its vendors and underlying investments, the uncertainty around the nature, type, breadth, and duration of an epidemic and the overall potential impact to the adviser's operations and client investments is unclear.

**Clients should take careful note that:**

Securities are Not FDIC Insured. Securities are Not a Deposit.

Securities May Lose Value. Securities are Not Bank Guaranteed.

Securities are Not Insured by any Federal Government Agency.

**Item 9: Disciplinary Information**

Registered Investment Advisors are required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of BMCM or the integrity of the firm's management. BMCM has not been involved in any of these disclosure items.

**Item 10: Other Financial Industry Activities and Affiliations**

WSFS Financial Corporation owns 100% of BMCM Management, LLC. WSFS Bank, Bryn Mawr Trust Company of Delaware and BMCM are affiliated as they are wholly-owned subsidiaries of WSFS Financial Corporation. As discussed in Item 5, we have a co-advisory arrangement with WSFS Bank, under which WSFS Bank can recommend that a prospective advisory client enter into a tri-party investment advisory agreement among WSFS Bank, us, and the client. In this arrangement, WSFS Bank provides certain relationship and suitability services to co-advised clients, and we provide ongoing discretionary advisory services to such clients. Because of the affiliation between WSFS Bank and BMCM

and given the fee arrangements for co-advised clients described above, WSFS Bank and its employees have an incentive to recommend a co-advisory relationship with us to prospective clients. In addition, based on the individual clients needs, BMCM will refer clients from time to time to WSFS bank or Bryn Mawr Trust Company of Delaware. While this may create a conflict of interest due to the ownership structure, BMCM does not receive referral-based compensation for such referrals.

Supervised Persons of BMCM serve as board members of affiliated entities. Additionally, BMCM utilizes certain shared services of affiliated entities to reduce cost and maximize efficiency and consistency throughout the organization. The Chief Compliance Officer, Chief Investment Officer and certain members of the research team of BMCM are shared resources between affiliated entities.

Shared resources are subject to BMCM Code of Ethics and compliance program, including adhering to policies limited the sharing of material, non-public information.

**Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading**

BCMC has determined certain persons should be deemed “Access Person” under its Code of Ethics. Access Persons are permitted to buy or sell securities that it also recommends to clients, consistent with BMCM’s policies and procedures. BMCM has adopted a Code of Ethics that sets forth the standards of conduct expected of its Access Persons and requires compliance with applicable securities laws. In accordance with Section 204A of the Investment Advisers Act of 1940 (the “Advisers Act”), BMCM’s Code of Ethics contains written policies reasonably designed to prevent the unlawful use of material non-public information by BMCM or any of its associated persons. BMCM monitors the personal trading activity of its Access Persons; Access Persons are required to report their personal securities holdings and transactions and obtain pre-approval of non-exempt securities, initial public offerings, and limited offerings.

Clients and prospective clients may contact BMCM via the phone number listed on the cover page of this document to request a copy of its Code of Ethics.

**Item 12: Brokerage Practices**

BMCM has discretion to select securities to be bought and sold. BMCM will endeavor to select those broker-dealers that provide best services and execution along with reasonable commission rates when possible. The reasonableness of commissions is based on the broker's ability to provide professional services, competitive commission rates, research and other services which will help BMCM in providing investment management services to clients. BMCM may use a broker who provides useful research and securities transaction services as an alternative to another broker with lower commission rates who does not offer research services and minimal securities transaction assistance. Research services may be useful in servicing all our clients, and not all such research may be useful for the account for which the particular transaction was effected.

**Directed Brokerage**

In the event that a client directs BMCM to use a particular broker-dealer, BMCM will not have authority to negotiate commissions, obtain volume discounts and therefore, best execution, as it relates to hard commission dollars. In addition, under these circumstances, a disparity in commission charges may exist between the commissions charged to other clients. Clients may pay commissions in addition to a mark-up/mark-down on OTC transactions under these circumstances and BMCM cannot guarantee best execution for directed brokerage transactions.

In these cases, as referred to above, the client is responsible for accepting the terms and arrangements with regard to commission rates and structure with that particular broker-dealer. When this situation arises, BMCM may not seek better execution with regard to commission rates due to pre-determined relationship with the client and broker-dealer. As a result, the client may pay materially disparate commission rates, greater spreads or other transaction costs or receive less favorable net prices on principal transactions. Commission structure rates between broker-dealers vary widely and frequently change; therefore, clients that have been referred to BMCM from a broker-dealer may cause a potential conflict of interest and may cause the referred client to pay materially higher transaction costs.

BMCM will make recommendations with regard to a broker-dealer only when requested. In many cases, BMCM has recommended Charles Schwab due to their lower commission structure relative to other retail

brokerage firms. In addition, we believe that Charles Schwab provides enhanced customer service, educational events, compliance tools and operational efficiencies to BMCM at no cost to the client.

**Schwab Custody and Brokerage Costs.** For client accounts that BMCM maintains Schwab generally does not charge clients separately for custody services but is compensated by charging commissions or other fees on trades that it executes or that settle into Schwab's accounts. Schwab's commission rates applicable to BMCM client accounts were negotiated based on the commitment to maintain a certain minimum amount of client assets at Schwab. This commitment benefits the client because the overall commission rates paid are lower than they would be if the firm had not made the commitment. In addition to commissions, Schwab charges a flat dollar amount as a "prime broker" or "trade away" fee for each trade that BMCM has executed by a different broker- dealer but where the securities bought or the funds from the securities sold are deposited (settled) into the client's custodian account. These fees are in addition to the commissions or other compensation the client pays the executing broker-dealer. Because of this, in order to minimize the client's trading costs, the firm has the custodian execute most trades for the account.

Schwab provides BMCM with access to its institutional trading and custody services, which are typically not available to Schwab's retail investors. These services generally are available to independent investment advisors on an unsolicited basis, at no charge to them so long as a certain minimum amount of the advisor's clients' assets are maintained in accounts at a particular custodian. These services are not contingent upon BMCM committing to Schwab any specific amount of business (assets in custody or trading commissions). Schwab's brokerage services include the execution of securities transactions, custody, research, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

Schwab also makes available to BMCM other products and services that benefit BMCM but may not directly benefit its clients' accounts. Many of these products and services may be used to service all or some substantial number of BMCM client accounts, including accounts not maintained at Schwab. Schwab may also make available to BMCM software and other technology that:

- provide access to client account data (such as trade confirmations and account statements)
- facilitate trade execution and allocate aggregated trade orders for multiple client accounts
- provide research, pricing, and other market data

- facilitate payment of BMCM fees from its clients' accounts
- assist with back-office functions, recordkeeping, and client reporting

Schwab may also offer other services intended to help BMCM manage and further develop its business enterprise. These services may include:

- compliance, legal and business consulting
- publications and conferences on practice management and business succession
- access to employee benefits providers, human capital consultants and insurance providers

Schwab may also provide other benefits such as educational events or occasional business entertainment of BMCM personnel. In evaluating whether to recommend that a client custody their assets at the custodian, BMCM may take into account the availability of some of the foregoing products and services and other arrangements as part of the total mix of factors it considers, and not solely the nature, cost or quality of custody and brokerage services provided by Schwab, which may create a potential conflict of interest.

Transactions for each client account generally will be affected independently, unless BMCMA's discussed above, in Item 5, BMCM generally uses the brokerage and clearing services of Fidelity, Schwab or TD Ameritrade. Factors which BMCM considers in recommending Fidelity, Schwab, TD Ameritrade or any other broker-dealer to clients include their financial strength, reputation, execution, pricing, research and service. Use of Fidelity, Schwab, and TD Ameritrade enables BMCM to obtain many mutual funds without transaction charges and other securities at nominal transaction charges. The commissions and/or transaction fees charged by Fidelity, Schwab, and TD Ameritrade may be higher or lower than those charged by other Financial Institutions. The commissions paid by BMCM's clients comply with BMCM's duty to obtain "best execution." Clients may pay commissions that are higher than another qualified Financial Institution might charge to affect the same transaction where BMCM determines that the commissions are reasonable in relation to the value of the brokerage and research services received. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a Financial Institution's services, including among others, the value of research provided, execution capability, commission rates, and responsiveness. BMCM seeks competitive rates but does not necessarily obtain the lowest possible commission rates for client transactions.

The client can direct BMCM in writing to use a particular Financial Institution to execute some or all transactions for the client. In that case, the client will negotiate terms and arrangements for the account with that Financial Institution, and BMCM will not seek better execution services or prices from other Financial Institutions or be able to “batch” client transactions for execution through other Financial Institutions with orders for other accounts managed by BMCM (as described below). As a result, it is possible that the client will pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case. Subject to its duty of best execution, BMCM can decline a client’s request to direct brokerage if, in BMCM’s sole discretion, such directed brokerage arrangements would result in additional operational difficulties.

Transactions for each client generally will be effected independently unless BMCM decides to purchase or sell the same securities for a number of client accounts simultaneously. When possible, orders for the same security will be combined or “batched” to facilitate best execution and to allocate equitably among our client’s differences in prices that might have been obtained had such orders been placed independently. BMCM effects batched transactions in a manner designed to ensure that no participating client is favored over any other client. Specifically, each client that participates in a batched transaction will participate at the average share price for all of BMCM’s transactions in that security on that business day, with respect to that batched order. Securities purchased or sold in a batched transaction are allocated *pro rata*, when possible, to the participating client accounts by a predetermined formula. BMCM may, however, increase or decrease the amount of securities allocated to each account if necessary, to avoid holding odd-lot or small numbers of shares for particular clients. Additionally, if BMCM is unable to fully execute a batched transaction and we determine that it would be impractical to allocate a small number of securities among the accounts participating in the transaction on a *pro rata* basis, BMCM may allocate such securities in a manner determined in good faith to be a reasonable and fair allocation

### **Software and Support Provided by Financial Institutions**

BMCM receives from Fidelity, Schwab, or TD Ameritrade, without cost to BMCM, computer software and related systems support, including: receipt of duplicate client confirmations and bundled duplicate statements; access to a trading desk that exclusively services its participants; access to block trading which

provides ability to aggregate securities transactions and then allocate the appropriate shares to client; and access to an electronic communication network for client order entry and account information. These services allow BMCM to monitor client accounts maintained at Fidelity, Schwab, or TD Ameritrade. BMCM receives the software and related support without cost because BMCM renders investment management services to clients that maintain assets at Fidelity, Schwab, or TD Ameritrade. The software and support are not provided in connection with securities transactions of clients and is not paid for with client funds (i.e. not “soft dollars”). In addition, Fidelity provides us with certain technology platforms and related trading and account management services at reduced costs. These products and services provide clients with an online Client Portal that enables them to view their investment objectives, risk tolerance parameters, investment strategies, and portfolios.

The software and related systems support provided by the Financial Institutions benefits BMCM, but not its clients directly. The Financial Institutions may offer us other services intended to assist us in the management and further development of our business, including educational conferences and events, consulting on technology, compliance, legal and business needs, and access to providers of services we may need. In fulfilling its duties to its clients, BMCM endeavors at all times to put the interests of its clients first. Clients should be aware, however, that BMCM’s receipt of economic benefits from a broker-dealer creates a conflict of interest since these benefits have the potential to influence BMCM’s choice of broker-dealer over another broker-dealer that does not furnish similar software, systems support, or services.

### **Cross Transactions**

BMCM currently does not execute transactions between client accounts (“cross transactions”).

### **Soft Dollars Benefits**

BMCM does not currently use client brokerage commissions (“Soft Dollars”) to obtain research or other products or services provided the product or service falls within the “safe harbor” provision under Section 28(e) of the United States Securities Exchange Act of 1934.

### **Item 13: Review of Accounts**

For those clients to whom BMCM provides investment management services, BMCM monitors those portfolios as part of an ongoing process. BMCM performs regular account reviews with clients via various methods including email, phone calls, or physical visits. For those clients to whom BMCM provides financial planning and/or consulting services, reviews are conducted on an “as needed” basis.

Such reviews are conducted by one of BMCM's investment adviser representatives. All investment advisory clients are encouraged to discuss their needs, goals, and objectives with BMCM and to keep BMCM informed of any changes thereto. BMCM contacts ongoing investment advisory clients at least annually to review its previous services and/or recommendations and to discuss the impact resulting from any changes in the client's financial situation and/or investment objectives.

Unless otherwise agreed upon, clients are provided with transaction confirmation notices and regular account statements directly from the broker-dealer or custodian for the client accounts. Those clients to whom BMCM provides investment advisory services will also receive a report from BMCM that includes such relevant account and/or market-related information such as an inventory of account holdings and account performance on a quarterly basis or as otherwise agreed. Clients should compare the account statements they receive from their custodian with those they receive from BMCM.

Those clients to whom BMCM provides financial planning and/or consulting services will receive reports from BMCM summarizing its analysis and conclusions as requested by the client or otherwise agreed to in writing by BMCM.

#### **Item 14: Client Referrals and Other Compensation**

##### **Client Referrals**

Apart from the Fidelity Wealth Advisor Solutions Program described in more detail in the section below, BMCM is engaged in a Co-Adviser relationship whereby BMCM pays WSFS Bank employees an amount equal to 15% of the fee paid by client to Adviser during the first four full calendar quarters immediately following the opening of the Account for referring clients to BMCM. Due to its affiliation with Advisers and given the fee arrangements, WSFS Bank has an incentive to recommend this co-advisory relationship to Client. These payments create a financial incentive for WSFS Bank to recommend BMCM over other firms where no compensation is received, resulting in material conflicts of interest. WSFS Bank is not a client of BMCM. This referral may not be representative of the experience of others and is not a guarantee of future performance or success.

##### **Fidelity Wealth Advisor Solutions Program**

BMCM participates in the Fidelity Wealth Advisor Solutions® Program (the “WAS Program”), through which BMCM receives referrals from Fidelity Personal and Workplace Advisors LLC (FPWA), a registered investment adviser and Fidelity Investments company. BMCM is independent and not affiliated with FPWA or any Fidelity Investments company. FPWA does not supervise or control BMCM, and FPWA has no responsibility or oversight for BMCM’s provision of investment management or other advisory services.

Under the WAS Program, FPWA will solicit clients on behalf of BMCM in accordance with Rule 206(4)-1, and BMCM pays referral fees to FPWA for each referral received based on BMCM’s assets under management attributable to each client referred by FPWA or members of each client’s household. The WAS Program is designed to help investors find an independent investment advisor, and any referral from FPWA to BMCM does not constitute a recommendation or endorsement by FPWA of BMCM’s particular investment management services or strategies. More specifically, BMCM pays the following amounts to FPWA for referrals: the sum of (i) an annual percentage of 0.10% of any and all assets in client accounts where such assets are identified as “fixed income” assets by FPWA and (ii) an annual percentage of 0.25% of all other assets held in client accounts. In addition, BMCM has agreed to pay FPWA a minimum annual fee amount in connection with its participation in the WAS Program. These referral fees are paid by BMCM and not the client.

To receive referrals from the WAS Program, BMCM must meet certain minimum participation criteria, but Advisor may have been selected for participation in the WAS Program as a result of its other business relationships with FPWA and its affiliates, including Fidelity Brokerage Services, LLC (“FBS”). As a result of its participation in the WAS Program, BMCM may have a potential conflict of interest with respect to its decision to use certain affiliates of FPWA, including FBS, for execution, custody and clearing for certain client accounts, and Advisor may have a potential incentive to suggest the use of FBS and its affiliates to its advisory clients, whether or not those clients were referred to BMCM as part of the WAS Program. Under an agreement with FPWA, BMCM has agreed that Advisor will not charge clients more than the standard range of advisory fees disclosed in its Form ADV 2A Brochure to cover solicitation fees paid to FPWA as part of the WAS Program. Pursuant to these arrangements, BMCM has agreed not to solicit clients to transfer their brokerage accounts from affiliates of FPWA or establish brokerage

accounts at other custodians for referred clients other than when BMCM's fiduciary duties would so require, and Advisor has agreed to pay FPWA a one-time fee equal to 0.75% of the assets in a client account that is transferred from FPWA's affiliates to another custodian; therefore, BMCM has an incentive to suggest that referred clients and their household members maintain custody of their accounts with affiliates of FPWA. However, participation in the WAS Program does not limit BMCM's duty to select brokers on the basis of best execution.

### **Other Economic Benefit**

BMCM receives economic benefits from non-clients for providing advice or other advisory services to clients. This type of relationship poses a conflict of interest, and any such relationship is disclosed in response to Item 12, above.

### **Item 15: Custody**

All BMCM assets are held with Qualified Custodians. BMCM and its related persons do not act as Qualified Custodian for client accounts. BMCM serves as investment adviser and sub-adviser to certain client accounts, where an affiliate (e.g., WSFS Bank) serves as either trustee or co-trustee. In addition, BDCM also has custody in instances where a supervised person of BDCM acts as co-trustee for clients or when BDCM makes third party disbursement for clients. For those accounts which BMCM is assumed to have custody, BMCM is required to obtain a surprise examination by a PCAOB registered independent public accountant, at least annually. In addition, BMCM is required to have a reasonable basis, after due inquiry, for believing the qualified custodian is sending quarterly brokerage statements.

BMCM clients should receive at least quarterly statements from the broker dealer, bank, or other qualified custodian that holds and maintains their investment assets. Clients may opt to receive such statements electronically. BMCM Capital Management urges clients to carefully review such statements and compare such official custodial records to the account statements we provide. Our statements may vary from custodial statements based on account procedures, reporting dates, or valuation methodologies of certain securities such as reporting accrued interest.

**Item 16: Investment Discretion**

BMCM accepts discretionary authority to manage security accounts for which it has received written authorization to do so. BMCM is considered to exercise investment discretion over a client's account if it can affect transactions for the client without first having to seek the client's consent. BMCM is given this authority through a power-of-attorney included in the agreement between BMCM and the client. Clients can request a limitation on this authority (such as certain securities not to be bought or sold). If permitted, BMCM takes discretion over one or more of the following activities:

- The securities to be purchased or sold;
- The amount of securities to be purchased or sold;
- When transactions are made;
- The Financial Institutions to be utilized; and/or
- The Independent Managers to be hired or fired.

**Item 17: Voting Client Securities**

If specified in the Investment Management Agreements, BMCM will vote proxies associated with securities held in certain managed accounts. A client may choose to vote his/her own shares or delegate that authority, in writing, to BMCM. That determination is typically made when the client opens their custodial/brokerage account. BMCM will vote the same way for all proxies related to a specific corporation unless a client specially requests BMCM to vote otherwise. BMCM has contracted with a vendor who provides BMCM with an electronic proxy voting software and data driven guidelines for proxy voting ("SV Template). The SV Template reflects the majority voting trends based on the certain criteria. BMCM Capital is in no way obligated to vote using the SV Template results. BMCM Capital uses its own judgment when deciding how to vote on any proposal. In the event BMCM does not vote in accordance with the recommendation on the SV Template, BMCM will document such rationale. BMCM will maintain records on each proxy vote. Clients may contact our office directly should they want to know how their proxies were voted.

The BMCM Proxy Voting Policies and Procedures will be sent to our clients annually or clients can request a copy of the complete Policy and Procedures by calling BMCM Capital Management directly via

the phone number listed on the cover page of this document. For co-advised clients, requests should be made through the co- advised client's WSFS Bank representative.

Because WSFS Financial Corporation is the parent company of BMCM Capital Management, voting client proxies for WSFS shares can be a conflict of interest. In the course of voting proxies for clients, should a client own shares of WSFS common stock, BMCM will forward the proxy to the client so that each item can be voted in accordance with client's wishes. The client's WSFS proxy and any communication with client will be documented and kept with proxy records. In cases where the client is unable to vote their WSFS shares, BMCM will complete the proxy to include withholding votes for all Directors and abstain on all other proposals. BMCM does not purchase shares of WSFS common stock unless the client directs advisor to do so (unsolicited).

**Item 18: Financial Information**

BMCM is a wholly owned subsidiary of WSFS Financial Corporation, a publicly traded company, the balance sheet of which is publicly available.

BMCM does not require or solicit prepayment of more than \$1,200 in fees per client, six months or more in advance, and therefore a balance sheet of BMCM is not required to be disclosed.

At time of filing, BMCM has no financial condition that is reasonably likely to impair its ability to meet contractual commitments to clients and has not been the subject of a bankruptcy petition at any time during the past ten years.
